Apply Now

Job Description

The Ministry of Home Affairs (MHA) aspires to be world-class in delivering a safe and secure home for our people. In pursuing our mission to help make Singapore safe and secure, we remain always constant and true to our core values of Honour and Unity.**Responsibilities**
You will be part of a dynamic team responsible for the implementation and support of our enterprise ICT systems and applications. We practise Agile software development, progress together as a team to solve issues, and bring value to our stakeholders. As a Robotic Process Automation (RPA) Developer, you will work closely with our users and have the opportunity to work on different solutions. Your primary responsibilities are as follows:

- Deliver and deploy software with high quality
- Write sustainable code that is clean, readable and consistent
- Work with users to execute RPA initiatives by analysing and designing process workflows
- Ensure that all project documents are maintained

Apply Now
